

World Heritage UK

Meet the speakers for the 'Re-opening World Heritage Sites', webinar 10-12 on Wednesday 7th July

Recognising that the UK's World Heritage Sites, both natural and cultural, will this year be attracting new and larger domestic audiences as a consequence of reduced international travel opportunities, this event will explore issues arising from these circumstances. It is hosted by the English Lake District World Heritage Site.

- How are WHS bringing their public benefits to a wider range of people in a safe and covid-compliant way?
- What do we mean by 'new and 'existing' audiences'? Who is expected, what sort of growth is anticipated, how might the mix of visitors change and what will their expectations be?
- How are the issues of visitor responsibility being tackled?
- What can be done to accommodate growing demands more effectively?
- How have resources been moving and what are the opportunities for new funding streams?

Speakers include:

Andrea Meanwell, Farming Officer to the Lake District National Park Authority (as seen on BBC 'Countryfile' yesterday evening) and Michael McGregor, The Robert Woof Director of the Wordsworth Trust

Georgina Greaves, Environmental Studies Service Manager for Derbyshire County Council and Mairi Lock, World Heritage Site Coordinator for the English Lake District

Stephen Ratcliffe, Director of Sustainable Development, Lake District National Park Authority will welcome you to the event, which will be chaired by Mike Innerdale, National Trust Regional Director, North of England.

It is hoped the National Trust's John Moffat, General Manager for the National Trust in the South Lakes, will also speak at this event.

This event is free to World Heritage UK members and just £10 for non-members. There is an opportunity to join World Heritage UK [HERE](#). Please register for this event via the button below and a link to the Zoom meeting platform will be sent to you near the time of the webinar.
